Authorization for this examiner's amendment was given in a telephone interview with Paul Davis on 6/15/2004.

The application has been amended as follows:

In line 23 on page 11 of the specification, the term "Fig. 1" has been replaced with --Fig. 1A-1D--

In line 30 on page 11 of the specification, --Fig. 5 illustrates an embodiment of the application, in which the signal to be transmitted through an optical fiber P1--has been inserted.

Allowable Subject Matter

2. Claims 37-38, 41-43, 46, 48-52, 56, 58-70 allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 37, the prior art of record, taken either alone or in combination, fails to disclose or render obvious a method for providing an improved surface of a III-V semiconductor at crystal mirror facets for laser cavities comprises the step of removing oxides and other surface contaminants formed with the reactive atoms from the at least one crystal mirror facet by controllably delivering nitrogen ions with an ion beam in a

vacuum, in combination with the rest of the limitation of claim 37. The closest cited prior art of Chakrabarti et al (US 5,668,049) discloses a method for making mirror facet comprises the step of plasma/dry etching using hydrogen to remove oxides and other contaminants from the mirror facet (col 3, lines 20-22)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
